**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**1. CORPORATE INFORMATION**

Nevada Sunrise Gold Corporation (the “Company”) was incorporated under the laws of the Province of British Columbia, Canada on April 3, 2007. On May 15, 2007, the Company acquired all of the issued and outstanding shares of Intor Resources Corporation (“Intor”) by way of a reverse takeover. Intor was incorporated under the laws of the State of Nevada, USA on September 7, 2004.

The Company’s principal business activity is the acquisition, exploration and evaluation of its mineral property assets located in the State of Nevada, USA. The Company’s common shares are listed for trading on the TSX Venture Exchange (“TSX-V”) under the symbol “NEV”.

The Company’s registered office is Suite 1100 - 1111 Melville Street, Vancouver, British Columbia, V6E 3V6.

**2. BASIS OF PREPARATION*****Statement of Compliance***

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standard (“IAS”) IAS 34 “Interim Financial Reporting”.

These condensed interim consolidated financial statements do not include all of the information and disclosures required to be included in annual financial statements prepared in accordance with IFRS. These condensed interim consolidated financial statements should be read in conjunction with the Company’s audited annual consolidated financial statements for the years ended September 30, 2016 and 2015.

These condensed interim consolidated financial statements were authorized for issue on August 29, 2017 by the directors of the Company.

***Going Concern***

These condensed interim consolidated financial statements are prepared using IFRS applicable to a going concern, which contemplates the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Future operations are dependent on the Company’s ability to raise additional equity financing and the attainment of profitable operations.

The Company has a history of operating losses and at June 30, 2017, has an accumulated deficit of \$17,055,369. At June 30, 2017, the Company had working capital of \$441,702. The Company will require equity financings in order to continue exploration of its exploration and evaluation assets and fund its administrative operations, but believes that it can maintain operations for the next twelve months.

These condensed interim consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. These conditions may cast significant doubt about the Company’s ability to continue as a going concern.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**2. BASIS OF PREPARATION (cont'd...)*****Principles of Consolidation***

These condensed interim consolidated financial statements incorporate the accounts of the Company and the following subsidiary:

Name of subsidiary	Country of Incorporation	Percentage ownership	Principal Activity
Intor Resources Corporation	USA	100%	Exploration of Mineral Properties

The Company consolidates the subsidiary on the basis that it controls the subsidiary through its ability to govern its financial and operating policies. All intercompany balances and transactions have been eliminated on consolidation.

***Basis of Measurement***

These condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments as fair value through profit and loss, which are stated at their fair value. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information. All dollar amounts are expressed in Canadian dollars unless otherwise specified.

***Critical Accounting Judgments, Estimates and Assumptions******Critical Judgments***

The preparation of these condensed interim consolidated financial statements requires the Company to make judgments regarding the going concern of the Company as discussed in Note 2.

The functional currency of an entity is the currency of the primary economic environment in which an entity operates. The determination of an entity's functional currency requires judgment based on analysis of relevant criteria. The functional currency of the Company and its subsidiaries was determined by conducting an analysis of the consideration factors identified in IAS 21, *The Effects of Changes in Foreign Exchange Rates* ("IAS 21").

***Estimations and assumptions***

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to, but are not limited to, the following:

i) ***Exploration and Evaluation Assets***

The carrying amount of the Company's exploration and evaluation assets properties does not necessarily represent present or future values, and the Company's exploration and evaluation assets have been accounted for under the assumption that the carrying amount will be recoverable. Recoverability is dependent on various factors, including the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the development and upon future profitable production or proceeds from the disposition of the mineral properties themselves. Additionally, there are numerous geological, economic, environmental and regulatory factors and uncertainties that could impact management's assessment as to the overall viability of its properties or to the ability to generate future cash flows necessary to cover or exceed the carrying value of the Company's exploration and evaluation assets.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**2. BASIS OF PREPARATION (cont'd...)*****Critical Accounting Judgments, Estimates and Assumptions (cont'd...)****ii) Share-based Payments*

The estimation of share-based payments includes estimating the inputs used in calculating the fair value for share-based payments expense included in profit or loss and share-based share issuance costs included in equity. Share-based payments expense and share-based share issuance costs are estimated using the Black-Scholes options-pricing model as measured on the grant date to estimate the fair value of stock options. This model involves the input of highly subjective assumptions, including the expected price volatility of the Company's common shares, the expected life of the options, and the estimated forfeiture rate.

*iii) Income Taxes*

The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and future income tax provisions or recoveries could be affected.

**3. SIGNIFICANT ACCOUNTING POLICIES*****Cash and Cash Equivalents***

Cash and cash equivalents consist of cash on deposit with banks and redeemable investment-grade short-term deposit certificates with maturities within twelve months of the statement of financial position date.

***Equipment***

Equipment is stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of equipment consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation is recorded over the estimated useful lives of the assets on the straight line basis:

Field equipment

7 years

An item of equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal of the asset, determined as the difference between the net disposal proceeds and the carrying amount of the asset, is recognized in profit or loss. Where an item of equipment is composed of major components with different useful lives, the components are accounted for as separate items of equipment. Expenditures incurred to replace a component of an item of equipment that is accounted for separately, including major inspection and overhaul expenditures, are capitalized. The assets' residual values, depreciation methods and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)*****Exploration and Evaluation Assets***

All direct costs related to the acquisition of exploration and evaluation assets are capitalized upon acquiring the legal right to explore a property. Exploration and evaluation expenditures incurred prior to the determination of the feasibility of mining operations and a decision to proceed with development, are charged to profit or loss as incurred.

Exploration and evaluation costs are expensed as incurred while the Company is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. If and when the Company's management determines that economically extractable proven or probable mineral reserves have been established, the subsequent costs incurred to develop such property, including costs to further delineate the ore body will be capitalized.

Proceeds in the form of cash and/or common shares received, and reimbursements of historical acquisition costs, from a partial sale or option of any interest in a property are credited against the carrying value of the property. When the proceeds exceed the carrying costs, the excess is recorded in profit or loss in the period the excess is received. When all of the interest in a property is sold, subject only to any retained royalty interests that may exist, the accumulated property costs are written-off, with any gain or loss included in profit or loss in the period the transaction takes place.

At each reporting date the carrying amounts of the Company's exploration and evaluation assets are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period.

For the purposes of impairment testing, exploration and evaluation assets are allocated to cash generating units to which the exploration activity relates. Each of the Company's properties are considered to be a separate cash generating unit. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)*****Decommissioning and Restoration Provisions***

The Company recognizes liabilities for legal or constructive obligations associated with the retirement of exploration and evaluation assets and equipment. The net present value of future rehabilitation costs is capitalized to the related asset along with a corresponding increase in the rehabilitation provision in the period incurred. Discount rates using a pre-tax rate that reflect the time value of money are used to calculate the net present value.

The Company's estimates of reclamation costs could change as a result of changes in regulatory requirements, discount rates and assumptions regarding the amount and timing of the future expenditures. These changes are recorded directly to the related assets with a corresponding entry to the rehabilitation provision. The increase in the provision due to the passage of time is recognized as interest expense.

The Company had no decommissioning liabilities as at June 30, 2017 and September 30, 2016.

***Foreign Currency Translation***

The functional currency is the currency of the primary economic environment in which the entity operates and has been determined for each entity within the Company. The functional currency of the Company is the Canadian dollar and the functional currency of Intor is the United States dollar. The functional currency determinations were conducted through an analysis of the consideration factors identified in IAS 21.

***i) Transactions and Balances***

Foreign currency transactions are translated into the relevant functional currency using the exchange rates prevailing at the dates of the transactions. At the end of each reporting period, the monetary assets and liabilities of the Company that are determined in foreign amounts are translated at the rate of exchange at the date of the statement of financial position. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of loss.

***ii) Translation of Subsidiary Results into the Presentation Currency***

The Company's presentation currency is in the Canadian dollar.

The results and statements of financial position of the Company's subsidiary with a functional currency that is different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities are translated at the period end rates of exchange, the results of operations are translated at average rates of exchange for the period, and items of equity are translated at historical rates. The resulting changes are recognized in accumulated other comprehensive income ("AOCI") in equity as a foreign currency translation adjustment.

***Share-based Payments***

The stock option plan allows Company employees, directors and consultants to acquire shares of the Company. The fair value of options granted is recognized as a share-based payments expense with a corresponding increase in equity. An individual is classified as an employee when the individual is an employee for legal or tax purposes (direct employee) or provides services similar to those performed by a direct employee. Consideration paid on the exercise of stock options is credited to share capital and the fair value of the options is reclassified from contributed reserves to share capital.

The fair value is measured at grant date and each tranche is recognized over the period during which the options vest.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)*****Share-based Payments (cont'd...)***

The fair value of the options granted is measured using the Black-Scholes Option Pricing Model which takes into account the terms and conditions upon which the options were granted. At each financial position reporting date, the amount recognized as an expense is adjusted to reflect the number of stock options that are expected to vest.

In situations where equity instruments are issued to non-employees and some or all of the goods or services received by the entity as consideration cannot be specifically identified, they are measured at fair value of the share-based payment. Otherwise, share-based payments are measured at the fair value of goods or services received.

***Income Taxes***

Current tax is the expected tax payable or receivable on the local taxable income or loss for the year, using local tax rates enacted or substantively enacted at the financial position reporting date, and includes any adjustments to tax payable or receivable in respect of previous periods.

Deferred income taxes are recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the financial position reporting date. Deferred tax is not recognized for temporary differences which arise on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting, nor taxable profit or loss.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

***Loss Per Share***

The Company presents basic and diluted loss per share data for its common shares, calculated by dividing the loss attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted loss per share does not adjust the loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

***Financial Instruments******i) Financial Assets***

All financial assets are initially recorded at fair value and designated upon inception into one of the following four categories: held to maturity, available for sale, loans and receivables or at fair value through profit or loss ("FVTPL").

Financial assets classified as FVTPL are measured at fair value with unrealized gains and losses recognized through profit or loss. The Company's cash and cash equivalents, and marketable securities are classified as FVTPL.

Financial assets classified as loans and receivables and held to maturity assets are measured at amortized cost. The Company's receivables are classified as loans and receivables. Financial assets classified as available for sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income except for losses in value that are considered other than temporary which are recognized in profit or loss. The Company classifies its reclamation bonds and right of way as held to maturity. No financial assets are classified as available for sale.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)***Financial Instruments (cont'd...)**i) Financial Assets (cont'd...)*

Transaction costs associated with FVTPL financial assets are expensed as incurred, while transaction costs associated with all other financial assets are included in the initial carrying amount of the asset.

At each reporting date, the Company assesses whether there is objective evidence that a financial asset is impaired, other than those classified as FVTPL. If such evidence exists, the Company recognizes an impairment loss as follows:

- a) Financial assets carried at amortized cost: The loss is the difference between the amortized cost of the asset and the present value of the estimated future cash flows, discounted using the instrument's original effective interest rate. The carrying amount of the asset is reduced by this amount either directly or indirectly through the use of an allowance account.
- b) Available-for-sale financial assets: The impairment loss is the difference between the original cost of the asset and its fair value at the measurement date, less any impairment losses previously recognized in the statement of loss and comprehensive loss. This amount represents the cumulative loss in accumulated other comprehensive income that is reclassified to the statement of loss and comprehensive loss.

*ii) Financial Liabilities*

All financial liabilities are initially recorded at fair value and designated upon inception as FVTPL or other financial liabilities.

Financial liabilities classified as other financial liabilities are initially recognized at fair value less directly attributable transaction costs. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. The effective interest rate method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period. The Company's accounts payable and accrued liabilities and due to related parties are classified as other financial liabilities.

Financial liabilities classified as FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Derivatives, including separated embedded derivatives are also classified as held for trading and recognized at fair value with changes in fair value recognized in profit or loss unless they are designated as effective hedging instruments. Fair value changes on financial liabilities classified as FVTPL are recognized in profit or loss.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)*****Impairment of non-financial assets***

At the end of each reporting period the carrying amounts of the Company's assets are reviewed to determine whether there is any indication that those assets may be impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. Fair value is determined as the amount that would be obtained from the sale of the asset in an arm's length transaction between knowledgeable and willing parties. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognized in profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs. Following the recognition of an impairment loss, the depreciation charge applicable to the asset is adjusted prospectively in order to systematically allocate the revised carrying amount, net of any residual value, over the remaining useful life.

Where an impairment subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate and its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

***Share Capital***

Common shares are classified as equity. Incremental costs directly attributable to the issue of common shares and stock options are recognized as a deduction from equity. Common shares issued for consideration other than cash, are valued based on their market value at the date the shares are issued.

The Company has adopted a residual value method with respect to the measurement of warrants attached to private placement units. The residual value method first allocates value to the more easily measurable component based on fair value and then the residual value, if any, to the less easily measurable component. The Company considers the fair value of common shares issued in the private placements to be the more easily measurable component and the common shares are valued at their fair value, as determined by the closing market price on the announcement date. The balance, if any, is allocated to the attached warrants. Any fair value attributed to the warrants is recorded as contributed reserves.

***New Standards Adopted for the Year Ended September 30, 2016***

Effective October 1, 2015, the following standards were adopted but did not have a material impact on the condensed interim consolidated financial statements.

- IFRS 7: Amended to require additional disclosures on transition from IAS 39 and IFRS 9.

***New Standards and Interpretations Not Yet Adopted***

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

- IFRS 9: New standard that replaced IAS 39 for classification and measurement, effective for annual periods beginning on or after January 1, 2018.
- IFRS 16: Leases: New standard to establish principles for recognition, measurement, presentation and disclosure of leases with an impact on lessee accounting, effective for annual periods beginning on or after January 1, 2019.

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT**

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

The fair values of the Company's receivables, accounts payable and accrued liabilities and due to related parties approximate their carrying values because of the short-term nature of these instruments. The fair value of the Company's reclamation bonds and right of way also approximate its carrying value.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at June 30, 2017 and September 30, 2016:

	Level 1	Level 2	Level 3
June 30, 2017:			
Cash and cash equivalents	\$ 248,781	\$ -	\$ -
Marketable securities	\$ 552,066	\$ -	\$ -
September 30, 2016:			
Cash and cash equivalents	\$ 1,015,474	\$ -	\$ -
Marketable securities	\$ 1,979,140	\$ -	\$ -

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

*Credit risk*

The Company's cash and cash equivalents are held with large financial institutions. The Company's receivables consist of interest receivable on guaranteed investment certificates, goods and services tax receivable from the Government of Canada, refundable deposits and exploration expenses incurred on behalf of third parties.

Management believes that credit risk concentration with respect to receivables is remote. The composition of receivables is as follows:

	June 30, 2017	September 30, 2016
Interest receivable	\$ -	\$ 200
Goods and services tax receivable	3,810	4,451
Other receivables	5,713	-
Expenses on behalf of third parties	532,292	182,696
	<u>\$ 541,815</u>	<u>\$ 187,347</u>

*Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at June 30, 2017, the Company had cash and cash equivalents of \$248,781 to settle current liabilities of \$753,402. Management believes the Company has sufficient funds to meet its current liabilities as they become due. See going concern discussion in Note 2.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)***Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

## a) Interest rate risk

The Company has cash balances which are not subject to significant risks in fluctuating interest rates. The Company's current policy is to invest excess cash in investment-grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. An increase to interest rates by 1% would have an insignificant effect on the Company's operations.

## b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash and cash equivalents and accounts payable and accrued liabilities that are denominated in US dollars.

## c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings, or ability to obtain equity financing, due to movements in individual equity prices or general movements in the level of the stock market. The Company's marketable securities are subject to price risk. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of gold, lithium, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

*Sensitivity Analysis*

The Company operates in the United States and is exposed to exchange risk from changes in the US dollar. At June 30, 2017, a 10% fluctuation in the US dollar against the Canadian dollar would affect comprehensive income or loss by approximately \$3,100. A 10% fluctuation in the fair value of the Company's marketable securities would affect comprehensive income or loss by approximately \$55,200.

**5. MARKETABLE SECURITIES**

---

	June 30, 2017	September 30, 2016
<b>Common shares of public companies:</b>		
Fair value, opening	\$ 1,979,140	\$ -
Acquisitions (Schedule 1)	11,000	1,480,296
Proceeds on disposal	(295,897)	(20,280)
Option payment - Exploration and evaluation assets (Schedule 1)	-	(142,413)
Realized loss on disposal	(163,325)	(32,220)
Unrealized gain (loss)	(978,852)	693,757
	\$ 552,066	\$ 1,979,140

---

The Company has determined that it does not hold significant influence in any of its investments. The fair value is determined at each reporting date by reference to the closing price of these common shares. Certain marketable securities with trade restriction dates more than one year from the reporting date are included in non-current assets.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**6. SEGMENTED INFORMATION**

The Company operates in one reportable operating segment, being the exploration and evaluation of mineral properties in Nevada, USA. All of the Company's non-current assets are located in the United States.

**7. EXPLORATION AND EVALUATION ASSETS**

Title to exploration and evaluation asset interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous historical title conveyance characteristic of many mineral claims. The Company has investigated title to all of its exploration and evaluation asset interests and, to the best of its knowledge, title to all of its interests are in good standing. The exploration and evaluation assets the Company has committed to earn interests in are located in the State of Nevada, USA.

Exploration and evaluation costs for the nine months ended June 30, 2017 and 2016 were allocated as follows:

---

	2017	2016
Golden Arrow	\$ 25,569	\$ 39,413
Kinsley Mountain	23,938	140,419
Roulette	275,904	490
Neptune	(1,442)	628,959
Clayton NE	-	1,918
Jackson Wash	(3,903)	5,980
Atlantis	2,002	11,259
Gemini	-	81,057
Aquarius	-	25,995
Clayton Valley - Water Rights	5,925	13,763
	\$ 327,993	\$ 949,253

---

**Kinsley Gold LLC**

The Company and Liberty Gold Inc. (formerly Pilot Gold Inc.), ("Liberty") formed a joint venture company, Kinsley Gold LLC, to explore the Kinsley Mountain property. At June 30, 2017, the Company's interest in Kinsley Gold LLC was 20.94%.

The Company and Liberty approved a 2017 exploration budget for Kinsley Mountain at US\$528,000. The exploration program was financed by a surety program with Argonaut Insurance Company ("Argonaut"). Under the surety program, Argonaut would finance up to 85% of Kinsley Gold LLC's US\$749,000 reclamation bond currently posted with the Bureau of Land Management at an interest rate of 2% per annum. This financing was sufficient to cover the entire estimated cost of the 2017 exploration program at Kinsley Mountain.

**Option Agreement - Advantage Lithium Corporation**

On June 16, 2016, Advantage Lithium Corporation ("Advantage") was granted the right to earn up to a 70% interest in each of four of the Company's lithium properties (Neptune, Aquarius, Clayton NE and Jackson Wash) and a 50% interest in Gemini for, among other things, incurring \$3,000,000 of exploration expenditures on the properties.

As of the date of these condensed interim consolidated financial statements, Advantage had incurred approximately \$2,700,000 of its exploration commitment of \$3,000,000. For further detail on the Advantage option agreement, refer to Note 7(k) and to Note 12.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)****(a) Golden Arrow**

The Company has a mining lease and two quitclaim deeds covering certain unpatented, and patented mineral claims which comprise the Golden Arrow property.

**Mining Lease**

The mining lease agreement is subject to a 3% net smelter royalty and an annual royalty payment of US\$25,000 per year, payable on January 1 each year, for the remainder of the term of the mining lease. The mining lease can be extended year to year at the Company's option, by continuing to make the advance minimum royalty payments. The Company may purchase 1% of the net smelter royalty for \$1,000,000 at any time during the remaining term of the mining lease or during any subsequent term.

**Quit Claim Deeds**

One of the quitclaim deeds is subject to a 3% net smelter royalty and requires an annual royalty payment of US\$25,000 per year, payable on July 1 each year. The Company has the option to buy-down the net smelter royalty from 3% to 1%, in 1% increments, by making a one-time payment of US\$100,000 per 1% increment reduction. If the Company elects to buy-down the net smelter royalty, the annual advance royalty payment will also be reduced proportionately. The other quitclaim deed includes a 1% net smelter royalty.

**Plan of Operations**

On May 11, 2016, the Company received the Golden Arrow Project Plan of Operations Approval from the US Bureau of Land Management for the State of Nevada. The Plan of Operations allows for drilling of up to 240,000 feet (approximately 73,000 metres) over a ten year period. The Company is required to increase the reclamation bond on Golden Arrow to US\$94,011 upon commencement of exploration. In addition, the Company was granted a 10 year right of way to access the Golden Arrow property. The Company paid US\$4,262 to prepay the right of way for the entire 10 year term which begins in July 2016 and carries through to June 2025. The Company is amortizing the right of way on a straight-line basis over the ten year term.

**(b) Kinsley Mountain**

The Company and Liberty hold joint venture interests in Kinsley Gold LLC, which holds a mining lease agreement relating to the Kinsley Mountain property. The mining lease agreement has a 3% net smelter royalty on production. The mining lease agreement runs through June 2020, however, Kinsley Gold LLC has the right to terminate the lease with the former related party upon thirty days written notice or to extend the lease beyond 2020 provided it continues to make the required advance minimum royalty payments (2016 – advance minimum royalty obligations met). Per the terms of the mining lease agreement, Kinsley Gold LLC has an obligation to expend a minimum per calendar year of US\$500,000 (2017 – obligation met) annually in exploration, development and mining activities on the Kinsley Mountain property. Liberty is the operator of the joint venture activities undertaken by Kinsley Gold LLC.

At June 30, 2017, the Company had advanced \$Nil (September 30, 2016 - \$21,816) to Kinsley Gold LLC for exploration on Kinsley Mountain.

At June 30, 2017, the Company's proportionate interest in Kinsley Gold LLC and the Kinsley Mountain property was 20.94%. The presumption that the Company has significant influence by holding 20% or more of the voting power through the joint venture is overcome due to limitations in policy making processes and decisions. Additionally, the terms of the joint venture agreement do not meet the definition of a joint arrangement.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)****(c) Roulette**

On November 3, 2014, the Company entered into an option agreement to purchase the Roulette gold property located in White Pine County, Nevada. The Company expanded the claim group by way of staking.

For the option to earn a 100% interest in the original claim group, the Company has agreed to pay the vendors cash payments as follows:

<b>Date of Payment</b>	<b>Cash</b>
November 3, 2014	US\$7,500 (paid)
November 3, 2015	US\$12,500 (paid)
November 3, 2016	US\$20,000 (paid)
November 3, 2017	US\$25,000
November 3, 2018	US\$30,000
November 3, 2019	US\$35,000 (or a US\$200,000 buyout as described below)

The Company can elect to pay 50% of any future option payments to the vendors in common shares of the Company but would incur a 20% surcharge in favor of the vendors. On November 3, 2019, the Company has the right to purchase a 100% interest in the original claim group for US\$200,000, subject to a 2.5% net smelter returns royalty ("NSR"). At any time before a decision to commence production, the Company will have the right to purchase 1% of the NSR for US\$1,000,000 and the remaining 1.5% NSR for US\$2,000,000.

On June 30, 2017, after completion of a four-hole exploration program at Roulette, the Company terminated its option to purchase Roulette and recorded a charge of \$155,290 for the acquisition costs incurred on Roulette.

**(d) Neptune**

On September 16, 2015, the Company entered into an option agreement to purchase a 100% interest in the Neptune lithium property located in the Clayton Valley, Esmeralda County, Nevada.

For the option to earn a 100% interest in the property, the Company agreed to issue 1,000,000 common shares of the Company to the vendors as follows:

<b>Date of Payment</b>	<b>Common Shares</b>
October 20, 2015	200,000 common shares (issued at a fair value of \$47,000)
September 16, 2016	300,000 common shares (172,218 common shares of Advantage issued directly to the Optionor representing the fair value equivalent)
September 16, 2017	500,000 common shares

Neptune is subject to a 3% gross overriding royalty ("GOR"). Until September 16, 2018, the Company has the right to purchase 1% of the GOR for US\$1,000,000.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)***(d) Neptune (continued)*Option Agreement – Option to Resolve Ventures Inc.

On May 3, 2016, the Company entered into a definitive joint venture and option agreement with Resolve Ventures Inc. (“Resolve”) in which Resolve could earn up to a 50% interest in the Neptune lithium property.

Under the terms of the definitive agreement, Resolve could earn an initial 25% interest in Neptune by making cash and share payments to the Company and by financing exploration expenditures as follows:

<b>Description</b>	<b>Cash</b>	<b>Common shares</b>	<b>Exploration expenditure advances</b>
Execution of interim agreement	\$50,000 (received)	-	-
Delivery by the Company of a co-addressed National Instrument 43-101 compliant technical report	\$50,000 (received)	-	-
Execution of the definitive agreement	-	200,000 (received at a fair value of \$50,000)	-
Funds advanced to the Company for exploration expenditures to be incurred by the Company	-	-	\$300,000 (received)

Neptune Option Amendment – Option to Advantage:

The Company entered into an Amendment to Option and Joint Venture Agreement (“Neptune Option Amendment Agreement”) with Resolve and Advantage dated September 27, 2016.

The Neptune Option Amendment Agreement amends and supersedes the Company's option agreement with Resolve dated May 3, 2016. Pursuant to the May 3, 2016 option agreement, Resolve had the right to earn up to a 50% interest in the Neptune property. Resolve fulfilled its obligations of for the initial 25% earn-in on the Neptune property. Pursuant to the Neptune Option Amendment Agreement, Resolve agreed to terminate its right to a second-stage earn-in where it could have increased its interest to 50%. The Neptune Option Amendment Agreement granted Advantage the option to earn up to a 50% interest in the Neptune property, with the Company and Resolve each retaining a 25% interest. Upon Advantage exercising its option to earn a 50% interest, a three-way joint venture would be formed.

To earn a 50% interest in the Neptune property, Advantage must fulfill the following obligations:

- Incur total exploration expenditures of \$700,000, as follows: a minimum of \$100,000 before July 29, 2017; a minimum aggregate of \$300,000 before July 29, 2018; and a minimum aggregate of \$700,000 before July 29, 2019;
- Exercise its initial option agreement with the Company for the five lithium properties (see Note 8(k)) one of which is the Neptune property;
- Make annual common share payments to the underlying owner of the property, either by direct issuance of Advantage's common shares, or by reimbursing the Company with Advantage common shares, should the Company issue its shares to the underlying owner, at the underlying owner's option.

If the Neptune Option Amendment Agreement is terminated prior to the Advantage earn-in date, Resolve can resume its right to the second-stage option and regain the right to earn a 50% interest in the Neptune property.

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)***(e) Clayton NE*

On December 3, 2015, the Company entered into an option agreement to purchase a 100% interest in the Clayton NE lithium property located in the Clayton Valley, Esmeralda County, Nevada. Refer to Note 8(k) for details of the option of Clayton NE to Advantage by the Company.

For the option to purchase a 100% interest in the property, the Company agreed to issue 500,000 common shares of the Company to the vendor as follows:

<b>Date of Payment</b>	<b>Common Shares</b>
December 3, 2015	100,000 common shares (issued at a fair value of \$18,000)
December 3, 2016	150,000 common shares (34,865 common shares of Advantage subsequently issued directly to the Optionor representing the fair value equivalent)
December 3, 2017	250,000 common shares

The property is subject to a 3% gross overriding royalty (“GOR”). The Company has the right to purchase 1% of the GOR for US\$1,000,000 on or by December 3, 2018.

*(f) Jackson Wash*

On December 17, 2015, the Company entered into an option agreement to purchase a 100% interest in the Jackson Wash lithium property located in the Jackson Valley, Esmeralda County, Nevada. Refer to Note 8(k) for details of the option of Jackson Wash to Advantage by the Company.

For the option to purchase a 100% interest in the property, the Company agreed to issue 500,000 common shares of the Company to the vendor as follows:

<b>Date of Payment</b>	<b>Common Shares</b>
December 17, 2015	100,000 common shares (issued at a fair value of \$19,000)
December 17, 2016	150,000 common shares (32,887 common shares of Advantage subsequently issued directly to the Optionor representing the fair value equivalent)
December 17, 2017	250,000 common shares

The property is subject to a 3% GOR. Until December 17, 2018, the Company has the right to purchase 1% of the respective GOR for US\$1,000,000.

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)***(g) Atlantis*

On February 11, 2016, the Company entered into an option agreement for an option to purchase a 100% interest in the Atlantis lithium property located in the Fish Valley, Esmeralda County, Nevada.

For the option to purchase a 100% interest in the property, the Company agreed to issue 500,000 common shares of the Company to the vendor as follows:

<b>Date of Payment</b>	<b>Common Shares</b>
February 11, 2016	100,000 common shares (issued at a fair value of \$18,000)
February 11, 2017	150,000 common shares (issued at a fair value of \$39,000)
February 11, 2018	250,000 common shares

The property is subject to a 3% GOR. Until the third anniversary of the agreement, the Company has the right to purchase 1% of the respective GOR for US\$1,000,000.

*Option Agreement - American Lithium Corp.*

On March 14, 2016, the Company entered into a property option agreement with a private company, which was later acquired by American Lithium Corp., (“American Lithium”) (the “Optionee”) for an option to earn an 80% interest in the Atlantis lithium property, by making payments of cash and issuing common shares to the Company, by incurring exploration expenditures on the property, and by meeting certain other conditions, as follows:

<b>Details of Commitments of the Optionee</b>	<b>Cash</b>	<b>Common shares</b>	<b>Expenditure Commitments</b>
Reimbursement to the Company for acquisition expenditures	\$53,079 (US\$48,050) (received)	-	-
Upon recording of additional claims staked by the Company	\$100,000 (received)	-	-
On or before March 14, 2017	-	-	US\$100,000 (incurred)
On or before March 14, 2018	-	-	US\$250,000
On or before March 14, 2019	-	-	US\$650,000
March 21, 2016	-	250,000 (received at a fair value of \$262,500)	-
March 21, 2018	-	500,000	-
March 21, 2019	-	500,000	-

Should American Lithium not make future common share payments to the Company or not incur the required exploration and evaluation expenditures, the property option agreement will terminate without notice. Any shortfalls in exploration expenditures in any year may be paid to the Company in cash to keep the option in good standing. Any excess amounts of exploration expenditures incurred in a year can be applied to future years.

---

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)****(h) Gemini**

The Company owned a 100% interest in a group of mineral claims known as the Gemini lithium property (“Gemini”). These claims were acquired by way of staking. Gemini is located in the Lida Valley, Esmeralda County, Nevada. Refer to Note 8(k) for details of the option of Gemini to Advantage Lithium by the Company.

On January 20, 2016, the Company entered into an interim agreement with Eureka Resources Inc. (“Eureka”), a public company with directors and officers in common with the Company, to sell a 50% participating interest in the Gemini.

Pursuant to the terms of the interim agreement, Eureka had the right to acquire a 50% participating interest in Gemini by reimbursing the Company for 50% of the Gemini acquisition and evaluation costs (\$96,794 received). In addition, Eureka would issue the Company 500,000 common shares, with 300,000 shares to be issued on receipt of regulatory acceptance of the agreement (acceptance was received on June 6, 2016, common shares were received with a fair value of \$28,500) and 200,000 to be issued on June 6, 2017.

On May 4, 2016, the companies signed an addendum to the interim agreement that in the event that one of the companies divests of its 50% interest in Gemini, the remaining company would become the operator at Gemini by default.

On September 21, 2016, the Company entered into a Definitive Joint Venture Agreement with Eureka, with both parties’ initial Participating Interests at 50% each.

On June 6, 2017, the Company received 200,000 common shares of Eureka with a fair value of \$11,000.

**(i) Aquarius**

The Company owns a 100% interest in certain placer claims which make up the Aquarius lithium property. These claims were acquired by way of staking. Aquarius is located in the Clayton Valley, Esmeralda County, Nevada. Refer to Note 8(l) for details of the option of Aquarius to Advantage by the Company.

**(j) Triton**

In June 2017, the Company acquired a 100% interest in the Triton lithium property located in the Clayton Valley, Esmeralda County, Nevada.

Under agreement with the vendor, the acquisition of Triton is subject to an area of interest clause contained within the property agreement for the Clayton Northeast project. The Triton property was incorporated into the Advantage option agreement detailed in Note 8(l) for five of the Company’s Nevada lithium properties, including Clayton Northeast.

The cost of the Triton property was \$38,000 which was paid by Advantage.

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)****(k) Water Rights**Option of Water Rights from Vendors:

On March 16, 2016, the Company signed a definitive water rights purchase agreement for the option to purchase a 100% interest in water right Permit 44411 (the "Permit") in the Clayton Valley, Nevada. The pre-existing water right allows for 1,770 acre/feet of water use for mining and milling per year. Refer to Note 8(k) for details of the option of the water rights to Advantage Lithium by the Company.

In consideration for the option to purchase the water rights, the Company agreed to pay the vendors a combination of cash, common shares, and share purchase warrants as follows:

<b>Date of Payment</b>	<b>Cash</b>	<b>Common Shares</b>	<b>Share Purchase Warrants</b>
March 30, 2016	US\$125,000 (paid) <sup>(1)</sup>	200,000 (issued with a fair value of \$36,000) <sup>(1)</sup>	2,250,000 (issued)
December 21, 2016	US\$150,000 ( paid)	250,000 (issued)	n/a
December 21, 2017	US\$175,000	300,000	n/a
December 21, 2018	US\$200,000	350,000	n/a
December 21, 2019	US\$300,000	400,000	n/a
December 21, 2020	US\$350,000	500,000	n/a
<b>Total</b>	<b>US\$1,300,000</b>	<b>2,000,000</b>	<b>2,250,000</b>

<sup>(1)</sup> US\$75,000 of this cash payment, and the 200,000 common shares issued will be refundable to the Company, should the Company's ability to use the water rights to its fullest extent be restricted by any regulation or statute.

The 2,250,000 share purchase warrants were issued with the following terms:

---

---

Number of Warrants	Exercise Price	Expiry Date
750,000	\$0.50	March 30, 2018
750,000	\$0.70	March 30, 2019
750,000	\$1.00	March 30, 2020

---

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)***(j) Water Rights (continued)*

The fair value of the share purchase warrants was calculated as \$210,000 using the Black-Scholes Option Pricing Model using the weighted average assumptions below. Fair value is particularly impacted by stock price volatility, determined using historical price data for a term equivalent to the expected life of the warrant.

---

Risk-free interest rate	1.50%
Expected life of warrants	3 years
Annualized volatility	125%
Dividend rate	0%

---

On August 31, 2016, the Company signed a consent agreement with Advantage and the vendors of the water right, whereby the vendors consented to assign the terms of the original water right option agreement to Advantage for consideration as follows:

<b>Description</b>	<b>Cash</b>	<b>Common shares</b>
August 31, 2016	\$62,500 (paid)	-
Transfer of Advantage Lithium Corp., common shares by the Company	-	258,932 (transferred with a fair value of \$142,413)

On November 29, 2016, the state engineer's office of the Nevada Division of Water Resources ("NDWR") issued a ruling of forfeiture against the Permit, citing lack of beneficial use for a period of five years. The Company filed an appeal on December 29, 2016 with the NDWR.

As a result of the NDWR ruling of forfeiture of the Permit, and the subsequent appeal filed by the Company, the Company's ability to use the water right is uncertain, consequently, the Company and Advantage are currently re-negotiating the option of water rights agreement detailed below:

*Option of Water Rights to Advantage Lithium Corp.:*

The Company granted Advantage the option to acquire a 100% interest in the Permit, exercisable for a period of 120 days after the later of the date that Advantage exercises the Initial Option and the date that the Nevada State engineer approves the application to transfer the place of use and point of diversion of the Permit to the Aquarius property.

In order to maintain the water rights option, Advantage shall:

- Make all water rights cash payments required to be made until the exercise of the water rights option;
- Pay all legal and other costs associated with the application to transfer the place of use and point of diversion of the Permit;
- Pay all legal and other costs required to maintain the Permit.

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)**

*(j) Water Rights (continued)*

*Option of Water Rights to Advantage Lithium Corp.: (continued)*

In order to exercise the water rights option, Advantage shall pay the Company an amount equal to the sum of (with no due date specified):

- The water rights cash payments made by the Company prior to the grant of the water rights option;
- The value of the water rights share payments issued by the Company before the exercise of the water rights option (which shall be established by multiplying the number of shares issued by the 20-day volume-weighted average price immediately prior to the date such water rights share payments were made);
- The legal and other costs incurred by the Company to acquire and make the application to transfer the location of the Permit;
- \$200,000 (U.S.), payable in cash or a calculated value in Advantage shares, at Advantage's option.

After exercise of the water rights option, Advantage shall be solely responsible for making all remaining water rights cash payments and water rights share payments.

*(k) Option Agreement - Advantage Lithium Corp.*

On June 16, 2016, the Company signed a Letter of Intent to grant an option to Advantage Lithium to earn working interests in five of its lithium exploration projects located in Esmeralda County, Nevada.

*Initial Option:*

Advantage will be granted an Initial Option to earn the following interests, (collectively, the "Optioned Properties"):

- 51% of the Company's interest in Clayton NE property (subject to the Clayton NE underlying option) (Note 8(e));
- 51% of the Company's interest in the Jackson Wash property (subject to the Jackson Wash underlying option) (Note 8(f));
- 50% of the Gemini property (subject to the terms of the joint venture agreement with Eureka Resources Inc. and to the Company retaining a 2% GOR for divesting its interest) (Note 8(h)).
- 51% of the Aquarius property (subject to the Company retaining a 3% gross overriding royalty ("GOR") for divesting its interest) (Note 8(i)); and

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**7. EXPLORATION AND EVALUATION ASSETS (cont'd...)*****(k) Option Agreement - Advantage Lithium Corp. (continued)******Initial Option - Consideration:***

Advantage (the “Optionee”) will earn its interests in the Optioned Properties by making the following cash and share payments to the Company and by incurring exploration expenditures on the properties as follows:

<b>Details of Proceeds / Expenditure commitments of the Optionee</b>	<b>Cash</b>	<b>Common shares</b>	<b>Expenditure commitment</b>
June 16, 2016	\$600,000 (received)	-	-
4.9% of the issued and outstanding common shares of Advantage (subject to certain hold periods)	-	2,071,447 (received with a fair value of \$1,139,296)	-
Minimum exploration expenditures (to include claim maintenance fees for all of the properties that are payable or become payable), by June 16, 2018 (the “Initial Expenditures”)	-	-	\$1,500,000 <sup>(1)</sup>

(1) There is no specific property allocation requirement relating to the expenditure commitment.

During the nine months ended June 30, 2017, the Company earned management fee income of \$129,018 (2016 - \$Nil) in connection with the management of Advantage’s expenditure commitments.

At June 30, 2017, Advantage has earned its 51% initial option in the Optioned Properties. In addition, Advantage advised the Company that it would proceed with the Second Option.

***Second Option:***

Advantage has the right to increase its interests in the Optioned Properties to 70% interest by completing, by June 16, 2020, exploration expenditures of \$3,000,000, (aggregate expenditures in combination with the Initial Expenditures, with no specified allocations to each of the Optioned Properties). Thereafter, the parties will form a 70/30 joint venture.

As of the date of these condensed interim consolidated financial statements, Advantage had approximately \$300,000 remaining on its exploration commitment to complete the Second Option.

***Gemini Option:***

In connection with the Initial Option, the Company and Advantage will agree to make the expenditures required to be made by the Company in order for it to maintain its interest in the Gemini joint venture with Eureka (Note 8(h)), with any such expenditures being deemed to be Initial Expenditures. Provided that Advantage has made sufficient expenditures to maintain the Company’s interest in the Gemini joint venture, upon exercise of the Initial Option by Advantage, the Company will assign to Advantage the Company’s interest in the Gemini joint venture in consideration for a 2% GOR in the same form as that provided by the Company to the underlying vendor in the Neptune property agreement (Note 8(d)).

## e) Options

The Company has a stock option plan whereby it may grant options to employees, directors, officers, consultants and certain other service providers. The maximum number of options that may be granted under the plan is 10% of the issued and outstanding common shares. Options are exercisable for a maximum of 10 years. The exercise price of the options is set in accordance with the policies of the TSX Venture Exchange. Stock options are subject to vesting requirements as determined by the Company's Board of Directors.

The fair value of options vested during the year ended September 30, 2016, was \$387,900 (2015 - \$134,000). The fair value of stock options was calculated using the Black-Scholes Option Pricing Model using the weighted average assumptions below. Fair value is particularly impacted by stock price volatility, determined using historical price data for a term equivalent to the expected life of the option.

---

	Year Ended September 30, 2016	Year Ended September 30, 2015
Risk-free interest rate	1.43%	1.70%
Expected life of options	5 years	5 years
Annualized volatility	153%	139%
Dividend rate	0%	0%
Weighted average fair value per option	\$0.276	\$0.268

---

Stock option transactions and the number of stock options outstanding are summarized as follows:

---

	Number of Options	Weighted Average Exercise Price
Balance at September 30, 2015	2,240,000	\$ 0.36
Options cancelled	(30,000)	0.22
Options exercised	(312,500)	0.18
Options granted	1,405,000	0.30
Balance at September 30, 2016	3,302,500	\$ 0.35
Options expired	(190,000)	0.50
Balance at June 30, 2017	3,112,500	\$ 0.34

**12. SUBSEQUENT EVENTS*****Emgold Mining Corporation – Letter of Intent***

On July 18, 2017, the Company announced that it had signed a non-binding letter of intent (“LOI”) with Emgold Mining Corporation (“Emgold”) to enter into an option agreement on the Company’s Golden Arrow property.

The LOI provided Emgold with an option to acquire up to an 80% interest in Golden Arrow in exchange for Emgold meeting the following obligations over a 3-year period from the date of closing of the transaction:

- Cash payments to the Company of \$250,000;
- Issuance to the Company of 2,500,000 units of Emgold. Each unit consisting of one post-consolidation common share of Emgold and one transferable special warrant exercisable for one post-consolidation common share of Emgold at no cost to the Company;
- Incurring \$2,750,000 in exploration expenditures.

To earn an initial 51% interest in Golden Arrow (the “First Option”), Emgold has agreed to the following schedule of cash payments, common share payments and exploration expenditures:

- Cash payment of \$35,000 (non-refundable) upon execution of the LOI (received);
- Cash payment of \$215,000 and issuance of 312,500 Units within 5 days of acceptance of the transaction by the TSX-V (“the Closing Date”);
- Issuance of an additional 312,500 Units within 6 months of the Closing Date;
- Issuance of an additional 312,500 Units and exploration expenditures of \$250,000 within 12 months of the Closing Date;
- Issuance of an additional 312,500 Units within 18 months of the Closing Date;
- Issuance of an additional 312,500 Units and exploration expenditures of an additional \$1,250,000 within 24 months of the Closing Date.

Upon Emgold exercising the First Option, a joint venture would be formed, and Emgold would act as operator of exploration. The Company would not be obligated to contribute to exploration expenditures until Emgold completes the second stage of the option agreement.

To earn an additional 29% interest in Golden Arrow (the “Second Option”), Emgold has agreed to the following schedule of cash payments, common share payments and exploration expenditures:

- Issuance of an additional 468,750 Units within 30 months of the Closing Date;
- Issuance of an additional 468,750 Units and additional exploration expenditures of \$1,250,000 within 36 months of the Closing Date.

Should Emgold not have incurred \$1,250,000 in exploration expenditures required to complete the Second Option within the 12 month period, and provided it gives written notice of its intention to extend the option period to the Company not less than 30 days’ prior to the expiration of the Second Option, it would have an additional 12 months to incur these expenditures and its interest in the joint venture would be reduced to 75%. During the extension period, the Company would not be required to contribute to the joint venture.

After its exercise of the Second Option, and provided it holds at least a 75% interest in the Golden Arrow project, Emgold would have the option to purchase the Company’s participating interest in Golden Arrow, ranging from a maximum \$10,000,000 cash payment for a 25% interest to a minimum \$1,650,000 cash payment for an 11% interest. If any party to the joint venture falls below a 10% interest in the joint venture, the other party will have the option of purchasing the diluted party’s remaining interest for \$1,000,000.

**NEVADA SUNRISE GOLD CORPORATION****NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**

June 30, 2017

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

**12. SUBSEQUENT EVENTS (cont'd...)*****Emgold Mining Corporation – Letter of Intent***

The Company and Emgold have agreed to negotiate a definitive agreement as soon as practicable, which would include requirements that the Company's shareholdings in Emgold would not be equal to or exceed 10% of the then issued and outstanding shares of Emgold until such time as Emgold has obtained shareholder approval for the Company to become a "control person" of Emgold.

Emgold's obligation to close the transaction is subject to customary conditions, including:

- Emgold's completion of satisfactory due diligence on Golden Arrow;
- Emgold's completion of a minimum 1:10 consolidation of its issued and outstanding common shares;
- Emgold's receipt of cash proceeds from a contemplated post-consolidation equity financing in the amount necessary to pay: (i) related fees and expenses of the transaction; (ii) the second property payment of \$215,000; (iii) general corporate overhead for six months; and (iii) the first 12 months of minimum exploration expenditures on Golden Arrow in the amount of \$250,000;
- Director and shareholder (if necessary) approval of the transaction;
- Receipt of any regulatory approvals and third party consents (if necessary) on terms satisfactory to the parties, acting reasonably, including the acceptance of the transaction, and the issuance of the Units to the Company, as described above, by the TSX-V; and
- Execution of the definitive agreement and any ancillary agreements.

The Company has agreed to deal exclusively with Emgold in connection with the proposed option of the Golden Arrow property for a period of 90 days, during which the Company and Emgold intend to settle the definitive terms of the option agreement. Emgold has the right to extend the period to finalize the option agreement by up to 60 days.

***Advantage Lithium Option Amendment***

On August 23, 2017, the Company received notice from its exploration partner, Advantage Lithium Corp. ("Advantage") that Advantage would not be exercising its options on the Neptune, Jackson Wash, Aquarius and Gemini lithium projects. Advantage will continue to maintain its option on the Clayton NE project, which consists of the Clayton NE claims and the Triton claims.

Advantage currently has a 51% interest in the Clayton NE project and has incurred approximately \$2,700,000 in exploration expenditures on all the projects. Advantage can earn a 70% interest in Clayton NE project by financing approximately \$300,000 of additional exploration expenditures.

Advantage also retains its interest in the Company's Clayton Valley basin water rights, which are currently the subject of a judicial appeal of a State of Nevada ruling issued in November, 2016, which forfeited the water rights alleging lack of beneficial use. The Company intends to present evidence of beneficial use of the water rights in its appellate briefs and at an upcoming hearing on the matter.

***Options Exercised***

Subsequent to June 30, 2017, the Company issued 150,000 common shares pursuant to the exercise of options as follows:

- 100,000 common shares at \$0.19 per share for proceeds of \$19,000
- 50,000 common shares at \$0.22 per share for proceeds of \$11,000

***Warrants Exercised***

Subsequent to June 30, 2017, the Company issued 50,000 common shares pursuant to the exercise of warrants as follows:

- 12,000 common shares at \$0.25 per share for proceeds of \$3,000
