1. CORPORATE INFORMATION

Nevada Sunrise Metals Corporation (the “Company”) was incorporated under the laws of the Province of British Columbia, Canada on April 3, 2007. On May 15, 2007, the Company acquired all of the issued and outstanding shares of Intor Resources Corporation (“Intor”) by way of a reverse takeover. Intor was incorporated under the laws of the State of Nevada, USA on September 7, 2004.

The Company’s principal business activity is the acquisition, exploration and evaluation of its mineral property assets located in North America. The Company’s common shares are listed for trading on the TSX Venture Exchange (“TSX-V”) under the symbol “NEV”.

The Company’s head office, principal address and registered and records office is located at Suite 408 - 1199 West Pender Street, Vancouver, British Columbia, V6E 2R1.

2. BASIS OF PREPARATION***Statement of Compliance***

These condensed consolidated interim financial statements have been prepared in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

These condensed consolidated interim financial statements were authorized for issuance on May 29, 2026 by the directors of the Company.

Going Concern

These condensed consolidated interim financial statements are prepared using IFRS applicable to a going concern, which contemplates if the Company will continue in operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. Future operations are dependent on the Company’s ability to raise additional equity financing and the attainment of profitable operations.

The Company has a history of operating losses and at March 31, 2026, has an accumulated deficit of \$30,452,825. During the six months ended March 31, 2026, the Company had negative cash flow from operations, a loss of \$1,005,556 and a comprehensive loss of \$1,009,459. At March 31, 2026, the Company had working capital of \$753,028. The Company will require equity or loan financing and/or the sale of its assets in order to continue exploration of its exploration and evaluation assets and fund its administrative expenses.

These condensed consolidated interim financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. These conditions may cast significant doubt about the Company’s ability to continue as a going concern.

Principles of Consolidation

These condensed consolidated interim financial statements incorporate the accounts of the Company and the following subsidiary:

Name of subsidiary	Country of incorporation	Percentage ownership	Principal activity
Intor Resources Corporation	USA	100%	Exploration of mineral properties

The Company consolidates the subsidiary on the basis that it controls the subsidiary through its ability to govern its financial and operating policies. All intercompany balances and transactions have been eliminated on consolidation.

For the three and six months ended March 31, 2026 and 2025

(Unaudited – Prepared by Management)

Basis of Measurement

These condensed consolidated interim financial statements have been prepared on a historical cost basis, except for financial instruments classified as and measured at their fair value. In addition, these condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information. All dollar amounts are expressed in Canadian dollars unless otherwise specified.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of the Company's condensed consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities at the date of the condensed consolidated interim financial statements and reported amounts of income and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant estimates and critical judgements were the same as those stated in Note 2 to the audited financial statements as at and for the year ended September 30, 2025.

3. MATERIAL ACCOUNTING POLICY INFORMATION

The accounting policies followed by the Company are set out in Note 3 to the audited financial statements for the years ended September 30, 2025 and 2024 and have been consistently followed in the preparation of these condensed consolidated interim financial statements.

New Standards and Interpretations Adopted

Certain new accounting standards and interpretations have been issued but are not effective for the year ended September 30, 2026. The Company has not early adopted any new standards.

IFRS 18 Presentation and Disclosure in Financial Statements

IFRS 18 introduces three sets of new requirements to give investors more transparent and comparable information about companies' financial performance for better investment decisions.

- Three defined categories for income and expenses – operating, investing or financing – to improve the structure of the income statements, and require all companies to provide new defined subtotals, including operating profit;
- Requirement for companies to disclose explanations of management-defined performance measures (MPMs) that are related to the income statement; and
- Enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes.

This new standard is effective for reporting periods beginning on or after January 1, 2027.

The Company will be evaluating the impact of the above new standard on its consolidated financial statements.

4. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – Inputs that are not based on observable market data.

NEVADA SUNRISE METALS CORPORATION**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

For the three and six months ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

The fair values of the Company's cash, receivables, accounts payable and accrued liabilities, and due to related parties approximate their carrying values because of the short-term nature of these instruments. The fair values of reclamation bonds, and reclamation liabilities also approximate their carrying values.

The following table illustrates the classification of the Company's financial instruments within the fair value hierarchy as at March 31, 2026 and September 30, 2025:

	Level 1	Level 2	Level 3
March 31, 2026:			
Marketable securities	\$ 31,552	\$ -	\$ -
September 30, 2025:			
Marketable securities	\$ 64,063	\$ -	\$ -

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

The Company is subject to credit risk on its cash and receivables. The Company limits its exposure to credit loss on cash by placing its cash with credit worthy financial institutions. The Company's receivables consist of goods and services tax receivable from the Government of Canada and other receivables.

Management believes that credit risk concentration with respect to receivables is minimal. The composition of receivables as at March 31, 2026 and September 30, 2025 is as follows:

	March 31, 2026	September 30, 2025
Goods and services tax receivable	\$ 9,834	\$ 2,410
Other receivables	12,089	6,659
Allowance for doubtful receivables	(4,456)	(4,450)
	<u>\$ 17,467</u>	<u>\$ 4,619</u>

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. Management intends to obtain additional equity or loan financing and/or dispose of its marketable securities or other assets in order to meet its current liabilities as they become due. See going concern discussion in Note 2.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices.

a) Interest rate risk

The Company has cash balances which are not subject to significant risks in fluctuating interest rates. The Company monitors the investments it makes and is satisfied with the credit ratings of its banks. An increase to interest rates by 1% would have an insignificant effect on the Company's operations.

b) Foreign currency risk

Currency risk is the risk that the fair values or future cash flows of the Company's financial instruments will fluctuate because of changes in foreign currency exchange rates. The Company's currency risk primarily arises from financial

(Unaudited – Prepared by Management)

instruments denominated in US dollars that are held at the parent company level, as the functional currency of the parent company is Canadian dollars. Conversely for the Company's subsidiary who has a US dollar functional currency, currency risk primarily arises from financial instruments denominated in Canadian dollars that are held at the subsidiary company level.

The Company is exposed to foreign currency risk on fluctuations related to cash and accounts payable and accrued liabilities that are denominated in US dollars.

At March 31, 2026, a 10% fluctuation in the US dollar against the Canadian dollar would affect profit and loss by approximately \$13,500.

c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings, or ability to obtain equity financing, due to movements in individual equity prices or general movements in the level of the stock market. The Company's marketable securities are subject to price risk. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices including gold, copper, and lithium, as well as individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

At March 31, 2026, a 10% fluctuation in the fair value of the Company's marketable securities would affect comprehensive income (loss) by approximately \$3,000.

5. MARKETABLE SECURITIES

	March 31, 2026	September 30, 2025
Fair value, opening	\$ 64,063	\$ 161,388
Proceeds on sale	(62,669)	(59,495)
Gain (loss) on marketable securities	30,158	(37,830)
	\$ 31,552	\$ 64,063

As of and March 31, 2026, the Company held 172,000 (September 30, 2025 - 494,000) common shares of CopAur Minerals Inc. (TSXV: CPAU). The Company also held 92,500 common shares of Global Energy Metals Corporation (TSXV: GEMC) as at March 31, 2026 and September 30, 2025.

The Company has determined that it does not hold significant influence in any of its investments. The fair value is determined at each reporting date by reference to the closing price of these common shares which are publicly traded.

6. PREPAID EXPENSES AND DEPOSITS

	March 31, 2026	September 30, 2025
Deposits	\$ 13,363	\$ 5,550

Prepaid marketing	47,400	-
Other	43,011	3,751
	\$ 114,091	\$ 10,825

7. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation asset interests involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous historical title conveyance characteristic of many mineral claims. The Company has investigated title to all of its exploration and

(a) Griffon

On February 13, 2025, the Company signed a mining lease purchase agreement (“Griffon Lease”) with an arm’s-length vendor for the Griffon Gold Mine Project, which remains in effect at the Company’s option until February 13, 2032. The Company retains the right to purchase a 100% interest in Griffon, subject to a 2.0% net smelter returns royalty (“NSR”) with certain buydown provisions, in consideration for the cash payments to the vendors and minimum exploration expenditures as described in the table below:

NEVADA SUNRISE METALS CORPORATION**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

For the three and six months ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

Schedule of Cash Payments and Exploration Expenditures

Payment Due Dates	Cash Payments	Minimum Exploration Expenditures (Within One Year of Anniversary Date)
February 13, 2025	US\$25,000 (paid)	US\$150,000 (incurred)
February 13, 2026	US\$25,000 (paid)	US\$250,000 (incurred)
February 13, 2027	US\$25,000	US\$400,000
February 13, 2028	US\$25,000	US\$400,000
February 13, 2029	US\$25,000	US\$400,000
February 13, 2030	US\$25,000	US\$400,000
February 13, 2031	US\$25,000	US\$400,000

The Company retains the right to accelerate the timing of cash payments to the vendors at its discretion. The vendors have granted the exclusive and irrevocable right and option for the Company to purchase 100% of Griffon, subject to the 2.0% NSR, at any time during the term of the Griffon Lease by paying an amount equal to the aggregate value of any remaining cash payments plus the amount of the greater value of (i) US\$750,000 and (ii) 285 ounces of .999 gold. The Company has the right to purchase one-half of the NSR (1.0%) for US\$2,500,000 at any time during the term of the Griffon Lease and for one year after exercise of the option.

At any time during the term of the Griffon Lease if minimum annual exploration expenditures are exceeded in any year, which include property maintenance costs and any other costs related to exploration and development of the Griffon Gold Mine Project, the excess expenditures will be credited to a succeeding year.

(b) Gemini

The Company owned a 100% interest in a group of mineral claims known as the Gemini lithium property (“Gemini”). These claims were acquired by way of staking. After the sale of the claims to Dome Rock described below, the Company renamed its remaining claims “Gemini West”. Gemini is located in the Lida Valley, Esmeralda County, Nevada.

During the six months ended March 31, 2026, the Company recorded \$580 to claims maintenance for Gemini West. During the year ended September 30, 2025, the Company recorded \$18,058 in acquisition costs and \$12,631 in claims maintenance.

On November 24, 2024, the Company entered into an option agreement to sell certain non-core claims (the “Non-core Claims”) of the Gemini Lithium Project to Dome Rock Resources, LLC (“Dome Rock”). The purchase price for the acquisition of the Non-core Claims by Dome Rock was US\$300,000 in cash. On December 20, 2024, the option was exercised. The Company agreed to pay a finder’s fee of \$21,584 (US\$15,000) to an arms-length party in connection with the sale. As a result, the carrying value of the Gemini project was reduced by \$409,403 (US\$285,000). The Company retained a 2.0% net smelter returns royalty for metals and minerals produced from the non-core claims sold, of which one-half (1.0%) can be purchased for US\$500,000 for a period of five years, and the remaining 1.0% can be purchased for US\$750,000 for a period of ten years from the receipt of the exercise payment.

On August 13, 2025, the Company executed a purchase and sale option agreement with Dome Rock whereby Dome Rock agreed to purchase two hundred and twenty-three (223) unpatented lode claims (the “Core Claims”) from the Company, which represent the core claims of the Gemini Lithium Project.

The purchase price for a 100% acquisition of the Core Claims by Dome Rock was US\$800,000 in cash and was paid to the Company in accordance with the following schedule:

(Unaudited – Prepared by Management)

- An initial non-refundable US\$100,000 deposit was paid within five business days of the execution of the Agreement (the “Effective Date”);
- A second and final payment (the “Final Payment”) of US\$700,000, received on September 15, 2025.

Nevada Sunrise retained a 2.0% Net Smelter Returns royalty for metals and minerals produced from the Core Claims, of which one-half (1.0%) can be purchased by Dome Rock for US\$1.0 million. As a result, the carrying value of the Gemini project was reduced by \$269,346 (US\$195,122) and the Company recorded a gain on sale of exploration and evaluation assets of \$847,659 (US\$606,077).

(c) Badlands

The Company owns a 100% interest in a group of mineral claims known as the Badlands lithium property (“Badlands”). These claims were acquired during the year ended September 30, 2023, by way of staking. Badlands is located in the Lida Valley, Esmeralda County, Nevada. During the six months ended March 31, 2026, the Company recorded \$343 to claims maintenance; however, due to delays in exploring the property, the Company wrote it off during the same period. During the year ended September 30, 2025, the Company recorded \$4,064 to claims maintenance and \$7,882 to acquisition costs; however, due to delays in exploring the property, wrote it off during the same period.

(d) Jackson Wash

On December 17, 2015, the Company entered into an option agreement to purchase a 100% interest in the Jackson Wash lithium property located in the Jackson Valley, Esmeralda County, Nevada.

For the option to purchase a 100% interest in the property, the Company agreed to issue 500,000 common shares of the Company to the optionor over 3 years (issued).

The Jackson Wash property is subject to a 3% gross overriding royalty.

During the six months ended March 31, 2026, the Company recorded \$492 in claims maintenance, but wrote it off during the same period. During the year ended September 30, 2025, the Company recorded \$6,934 in claims maintenance, but wrote it off during the same period.

(e) Coronado

On September 25, 2018, the Company entered into a definitive option agreement (“Coronado Option Agreement”) to acquire a 100% interest in the Coronado copper property located in the Tobin Sonoma Range of Pershing County, Nevada in consideration for cash and share payments, and minimum exploration expenditures as described below:

14. SEGMENTED INFORMATION

The Company operates in one reportable operating segment, being the exploration and evaluation of mineral properties in North America. All of the Company's non-current assets are located in North America.

15. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of exploration and evaluation assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In the management of capital, the Company includes components of equity as capital.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent upon external financings or the sale of assets to fund activities. In order to carry out planned exploration and pay for administrative costs, the Company will spend its existing working capital, receive cash and shares pursuant to option agreements, sell assets, and raise additional funds as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the six months ended March 31, 2026. The Company is not currently subject to externally imposed capital requirements.

16. SUBSEQUENT EVENT

On May 26, 2026, the Company announced it had entered into an option agreement whereby the Company can earn up to a 79% working interest in the Fivemile Gold Project ("Fivemile") located in Lander County, Nevada from American Metals Exploration Corp. ("Ammetex"), a private Nevada company at arm's-length to Nevada Sunrise.

First Option

Nevada Sunrise can acquire a 51% interest in Fivemile (the "First Option") by incurring an aggregate of US\$1,000,000 of expenditures (the "First Option Expenditure Requirement") on Fivemile by May 31, 2028, of which a minimum of US\$300,000 of expenditures must be completed by May 31, 2027. The First Option Expenditure includes a cash payment to Ammetex of US\$55,500 (paid subsequent to March 31, 2026), an additional cash payment of US\$30,000 to Ammetex on or before August 15, 2026, and an additional cash payment of US\$60,000 to Ammetex on or before August 15, 2027.

Upon the Company meeting the First Option Expenditure Requirement, a joint venture will be negotiated between Nevada Sunrise and Ammetex and a joint venture company will be formed as soon as reasonably practicable.

Second Option

Upon its exercise of the First Option, the Company will have the option to acquire an additional 14% interest for a 65% interest in the joint venture (the "Second Option"). To exercise the Second Option, the Company shall incur an additional US\$850,000 of Expenditures (the "Second Option Expenditure Requirement") no later than May 31, 2029 (the "Second

Option Period"). The Second Option Expenditure Requirement shall include a cash payment to Ammetex of US\$80,000 on or before August 15, 2029.

The Second Option Expenditure Requirement will be incurred at the Company's sole discretion and if the Nevada Sunrise does not complete the Second Option Expenditure Requirement or provides notice that it does not intend to proceed with the Second Option, then the Second Option will terminate, with the Company holding a 51% interest in the joint venture.

Third Option

Upon the exercise of the Second Option, the Company will have the option to acquire an additional undivided 14% interest for a 79% interest in the joint venture (the "Third Option"). To exercise the Third Option, the Company shall incur an additional US\$850,000 of Expenditures (the "Third Option Expenditure Requirement") no later than May 31, 2030. The Third Option Expenditure Requirement shall include a cash payment to Ammetex of US\$120,000 payable by August 15, 2030.

If Nevada Sunrise does not complete the Third Option Expenditure Requirement or provides notice that it does not intend to proceed with the Third Option, then the Third Option will terminate, with the Company holding a 65% interest in the joint venture.

If the Company incurs expenditures in excess of either the First Option Expenditure Requirement, then the excess will be credited to (i) the Second Option Expenditure Requirement; (ii) if also in excess of the Second Option Expenditure Requirement, to the Third Option Expenditure Requirement; and (iii) if also in excess of the Third Option Expenditure Requirement, to the Company's proportionate share of joint venture expenditures.

At the time of the formation of the joint venture and until the Company completes an aggregate of US\$2.7 million in expenditures made during the Option Periods, Ammetex shall not be required to contribute to exploration expenditures. If the Company does not meet its expenditure obligations for the Second and Third Option Periods, and Ammetex wishes to make expenditures on Fivemile, the Company's 51% earned interest in the joint venture will be adjusted in accordance with a standard dilution formula.

Upon completion of the Third Option Expenditure Requirement, the Company shall hold a 79% interest in the joint venture, and Ammetex will be deemed to hold a 21% interest in the Joint Venture, and thereafter each party will be required to contribute to future expenditures in accordance with their pro rata interest or be diluted in accordance with a standard dilution formula.

Each party's interest in the joint venture is subject to a mutual right of first refusal.

Contingent Performance Payment

Nevada Sunrise has agreed to file a technical report prepared in accordance with National Instrument 43-101 ("NI 43-101") within five (5) years of May 25, 2026 on www.sedarplus.ca. If that technical report discloses a mineral resource estimate for the Property of at least five hundred thousand (500,000) ounces of gold equivalent, calculated by way of the industry-standard formula for combined gold and silver resources, in all categories of mineral resources (the "Qualifying MRE"), the Company or its assigns will pay a US\$1.0 million cash payment to Ammetex within 90 days of such filing. This payment will only be payable in connection with the first time the Company files a technical report within five (5) years of the Effective Date that includes a Qualifying MRE, and not for any subsequent update of such resource estimate.

Net Smelter Returns Royalty

The Company acknowledges that a 3.0% NSR Royalty (the "NSR") is reserved in favour of Ammetex and its lawful assigns (the "Royalty Holder") on production of valuable minerals from the Property. The Company has the right, exercisable at any time up until commencement of production, to purchase one-third of the NSR (equal to 1.0% of the NSR) by payment to the Royalty Holder of US\$2,000,000 in cash, under certain other conditions.

For the three and six months ended March 31, 2026 and 2025

(Expressed in Canadian Dollars)

(Unaudited – Prepared by Management)

If at any time the Royalty Holder receives a bona fide offer from a third party to purchase all or any portion of the Royalty (a "Royalty Purchase Offer"), the Royalty Holder shall promptly provide written notice to Nevada Sunrise of the Royalty Purchase Offer, including the identity of the proposed purchaser and the material terms and conditions thereof. Nevada Sunrise shall have thirty (30) days following receipt of such notice to elect, by written notice to the Royalty Holder, to exercise its buy-back right by purchasing 1.0% of the Net Smelter Returns Royalty for \$2,000,000 in cash, payable within thirty (30) days of such election. If Nevada Sunrise does not exercise its buy-back right within such thirty (30) day period, the Royalty Holder shall be free to complete the sale of the Royalty to the proposed purchaser on terms no more favourable to the proposed purchaser than those set forth in the Royalty Purchase Offer, provided that any such sale shall be completed within ninety (90) days of the expiry of Nevada Sunrise's election period.
